

SUNCOAST WINDOWS

LOUVRE WINDOWS

Enjoy a cool summer breeze
or a whisper of air

Signature Louvre Windows

When it comes to enjoying a breath of fresh air, our 'Signature' louvre windows have got your back. A modern take on a golden oldie, our louvre windows are easy to clean and easy to operate. They can be locked in position and can be combined with insect or security screens for protection against unwanted visitors.

Features & Benefits

Lifestyle & Comfort

- Maximum natural ventilation and air flow when fully open
- Easy clean design with the ability to clean both sides of the window from inside your home
- Smart draining allows water to drain from blades to the outside of the house, when windows are fully open
- Easy opening with optional ring pull handle and map rod for windows that are out of arm's reach
- Ideal for secure ventilation when installed above Suncoast windows doors (doors can be locked while louvres are left open)

Design & Aesthetic

- Multiple blade options including glass, timber and aluminium
- Architectural symmetry allows for combinations with other Suncoast windows and doors for unique design features

Optional

- Security or insect screens can be installed to keep unwanted visitors out

Performance & Reliability

- Security and safety features including handle locks
- Year-round weather proofing thanks to shrink-resistant Santoprene seals
- Superior strength provided by robust 125mm frames

Smart Solutions

High Performance Windows and Doors

As the market leader in Australia for aluminium and glass building products, Suncoast windows have developed its range of Smart Solutions to meet all high performance requirements.

Climate Control Solution

Solar Comfort™

Year-round Comfort

- Designed to reflect heat away in summer and keep heat inside during winter
- Enjoy the ideal temperature in your home all year round – cooler in summer, warmer in winter

Energy Reduction

- Keep power bills down by reducing the need for additional heating and cooling
- Help save the environment by consuming less energy

Specialty Solution

FlameShield™

Superior Bushfire Protection

- Meets Australian Standard AS3959:2009, which is aimed to reduce the risk of loss of life and property in bushfire prone areas
